

Web site navigation instructions

1. Enter the Discovery of Sound in the Sea Web site
<http://omp.gso.uri.edu/dosits.htm>,
2. GO TO the Teacher Resources page
3. Under Feature Sounds, CLICK ON Snapping Shrimp
4. Read the feature sound
5. GO TO the Audio Gallery and listen to the snapping shrimp sound clip.
6. Open the sound file in teacher activity named mbreach.mp3 (Humpback Whale pectoral slap).
7. GO TO the Animals and Sound in the Sea section
8. CLICK ON "How do marine animals communicate using sound?"
9. Read about how fish use sound to communicate, how marine mammals communicate, and how invertebrates communicate.
10. Think about the range of motivations marine animals exhibit for producing non-vocal sounds.
11. Additional sound clips can be found on the following web site,
<http://oceanlink.island.net/oinfo/acoustics/ListenLinks.html>
Select a second recording of snapping shrimp if you wish
